## Condensing water heater

> 75 000 Btu/hr

End use objective: water heating

The condensing water heater features a heat exchanger made of impervious materials (stainless steel) as well as optimum heat exchanger between combustion gases and the water to be heated.

It is designed to condense water contained in combustion products and recover some of the latent heat in those products.

## AUTHORIZED MINIMUM EFFICIENCY

Thermal efficiency: 78 %

Minimum efficiency for Gaz Métro programs:

Thermal efficiency: 90 % <sup>1</sup>

<sup>1</sup> Appliances with a secondary heat exchanger with an optional hook-up are eligible for financial assistance through the Intermediate efficiency water heater program.

## FINANCIAL INCENTIVES

Water heating applications > 75 000 Btu/hr	
Appliance capacity	Financial incentive
75 001 to 300 000 Btu/hr	\$1,200
300 001 to 325 000 Btu/hr	\$3,000
325 001 to 375 000 Btu/hr	\$4,000
375 001 to 450 000 Btu/hr	\$5,000
450 001 to 550 000 Btu/hr	\$6,000
550 001 to 650 000 Btu/hr	\$7,000
650 001 to 725 000 Btu/hr	\$8,000
725 001 to 900 000 Btu/hr	\$9,000
900 001 to 1 100 000 Btu/hr	\$10,000
1 100 001 to 1 300 000 Btu/hr	\$11,500
1 300 001 to 1 700 000 Btu/hr	\$13,500
1 700 001 to 2 000 000 Btu/hr	\$15,000
2 000 001 to 2 500 000 Btu/hr	\$16,500
2 500 001 to 3 000 000 Btu/hr	\$18,500
3 000 001 Btu/hr or more	\$20,000

To take advantage of this amount, the client must sign a standard contract (> 75 000 m<sup>3</sup>) with their sales representative or conclude a simplified contract (≤ 75 000 m<sup>3</sup>) with a Gaz Métro certified contractor (Gaz Métro Authorized Partner Program).

This financial incentive is applicable supplementary to the CSP/RCSP and can also be applied to retain existing customers. The total amount of the incentives must not exceed admissible expenses. Amounts are subject to change without prior notice.

If more than one unit with a capacity less than 300 000 Btu/hr is installed for the same purpose, the financial incentive is based upon the total capacity installed.

# Equipment list

Condensing water heaters > 75 000 Btu/hr

## → Aerco

Model no:  
KC-1000 KC GWW

## → A.O. Smith

Model no:  
CYCLONE XHE BTH (120-400)
